**FIELD MILLING INSTRUCTIONS:**

1. Collect measurements for each milling project below;
2. Onsite milling measurements are necessary for tooling preparation and should be within 1/8". If motor or pump pedestals are different than the drawing, sketch in changes accordingly or call 406-248-2813 for help. Photos are very helpful and can be e-mailed to [jrgnwi@aol.com](mailto:jrgnwi@aol.com).
